

HEALERS WHO SHARE SUMMER SEMINARS 2009

Level II Fundamentals	July	10 - 12
Level III Practitioners	July	16 - 19
Level IV Advanced	August	7 - 9

We teach the use of quantum formulas along with natural remedies, like those of Hanna Kroeger's. Using miasmically-based formulas and quantum formulas, results for a lifetime are achieved in areas thought to be incurable. With over 3,500 remedies, the span of healing is wider than most imagine.

The Specialized Skills Level has been folded into the HWS Dowsing DVD and is the self taught Level I (available for \$29 through Healers Who Share). Level II Fundamentals are needed to understand the Level III Practitioners course. Level III and some experience are needed to understand Level IV (where we reveal the deepest discoveries).

We are already excited about the 4th level because of current discoveries making their way through the proving status.

Class times are 9-11:45AM, 1:30-5, 7-9PM. Some evenings of Level III may end earlier. Levels II & III are in the HWS Headquarters. Level IV seminars are at the Courtyard Marriott.

Personal appointments are possible on July 15th or August 6th and can be arranged by calling the Healers Who Share office at (303) 428 4584. The times often fill by April 1st.

The previous level is needed to understand the succeeding level.

LEVEL I

The Specialized Skills Level has been folded into the Healers Who Share Dowsing DVD and is the self taught Level I. Dowsing is one of the best ways of accessing remedies.

The Healers Who Share Dowsing DVD is now available for \$29.

LEVEL II FUNDAMENTALS

Emphasis is placed on the cause and cure of: (1) The 7 most common intestinal diseases in the world and their lifetime cure (2) the largest cause of immune loss in the world and its cure (3) the Tuberculosis Epidemic (4) emotional solutions easier than you ever imagined and (5) how these basic diseases form the base of other diseases. These subjects form the foundation of our quantum formula success.

The theory, practice, combinations and employment of miasms interweaves into the fundamental formulas. These remedies are distinguished from others by the ability to remove chronic diseases for a lifetime without taking remedies for a lifetime. Specific protocols for many chronic diseases are included.

The use of quantum formulas for parasites, chemical pollutions, contrails, metals, bacteria, fungi and viruses will be interwoven. Teachings of Hanna Kroeger and others are intertwined throughout the course.

The aim in this basic course is how to help your own health.

LEVEL III PRACTITIONERS

Every year the amount of material has grown. Therefore Level III is 4 days because of the volume of material to cover. In this course we emphasize how to help others.

Expanding on the basic includes how to use the remedies for specific problems and diseases, including the most serious diseases facing our society. Symptoms are translated to causes and psychological symbolism so that you work on the whole person.

Where to start with a program and how to design programs for progressive healing are essentials for helping people heal themselves. How to be a practitioner within the law.

How to work by mail using the saliva samples provides many insights on how to be exact in your work. Personal interview will be used to demonstrate our approach.

When you finish, you will be able to help people with the solutions for Diabetes and a host of blood sugar problems and diseases, AIDS, Genital and Oral Herpes, Skin Diseases such as Shingles, Melanomas, Basal Cell, Squamous Cell and other forms of skin cancer, tumors in every location, Lyme and other tick diseases, allergies, Asthma, Emphysema, chemtrails, male and female problems, including PMS, depression, Autism, Asperger's, ADHD Alzheimer's, Radiation, Bubonic Plague (which has come back) and more emerging issues that often wind up on the docket as the year progresses.

This year we aim to add some review of actual cases to bring the material from theory to reality.

We will also answer as many specific questions as we can include.

LEVEL IV ADVANCED

It is hard to write so exactly what this will include because it emphasizes what was discovered since the summer of last year. We are planning a comprehensive approach to blood diseases. The discoveries rectifying the afflictions related to “aging” are being assembled.

We will continue with the research of new hormones presented last year. We will continue with the research of deeper answers found in our neurological structures.

Much of our research is taking us to the cellular level where most substantial changes take place. Like the remedy Dry Bones, which is for the embryonic cell of the bones, much revives at this level. We are working to make the subject easy to understand and easy to use.

We continue inventing new ways to reduce the number of bottles needed by continuing the combination method begun in 2006.

Some of these subjects we have addressed before, but there still seems to be new and promising discoveries coming in. We usually find ourselves defining part of the cutting edge in health. All that counts are results, so we will discuss what has produced results and what theories are adequately proven.

Level IV is Friday through Sunday. We usually build up to the most interesting discoveries by Sunday evening so we don't advise leaving early.
